

The payment station for Retail sector

- Automated payment at the point of sale
- Considerable time savings for employees - improved customer service
- Employees no longer have to handle cash, check authenticity or give change
- Can be used as a self-service checkout or as a personal checkout
- Reduction of cash discrepancies
- Reduced cash handling

The payment station for Retail sector

Professional Cash Handling and efficiency were the main features of our new development. With it's high level of flexibility and modular design the cash desk is an impressive pay station.

The cash desk can be installed under the desk / counter or in the cash desk counter itself.

Payment at the point of sale is made either by the customer or the employee. Items are scanned using the barcode reader.

The total value is displayed, payment is then made using banknotes and or coins. Mixed bulk coins are deposited into the coin chute quickly and easily and change can be dispensed

Equipment / configuration

- **Modular Design**
The basic module processes banknotes and handles the actual payment process. The coin module for processing coins is an available optional extra.
- **Software integration**
Cutting edge software enables easy connection to most EPOS systems.
- **Coin acceptance and dispensing (coin module optional)**
Bulk acceptance and payout of remaining credit in coins from EUR 0.01 to EUR 2.00.
- **15 inch touch display with stand**
- **QR-/Barcode scanner**
as a hand scanner
- **Banknote validator with deposit and withdrawal function**
2 banknote values with a recycling capacity of max. 100 banknotes and a banknote cashbox for up to 1,000 banknotes. The recycling compartments can be filled very quickly by inserting bundles of banknotes.
- **Individual design**
Housing colour and front panel can be bespoke to your specification. Your logo can be applied directly to the front panel using UV direct printing.
- **Web browser technology**
for online access to the service menu: To view statistics / audit plus log data in real time, status monitoring, edit settings and much more.

Thanks to the individual design of the frontplates, the Cash-Desk fits into every shop concept
